

This is the structure in

We start with the leader

... who needs a clear overview to manage

Aim: **Result of all completed tasks** should be possible to see with a few clicks.

DEFINITION: Internal Control is something we do, not something we have.

Overview – Click on graphs

Where does the data come from?

Q_m⁺ *has modules with ability to register cases (messages)*

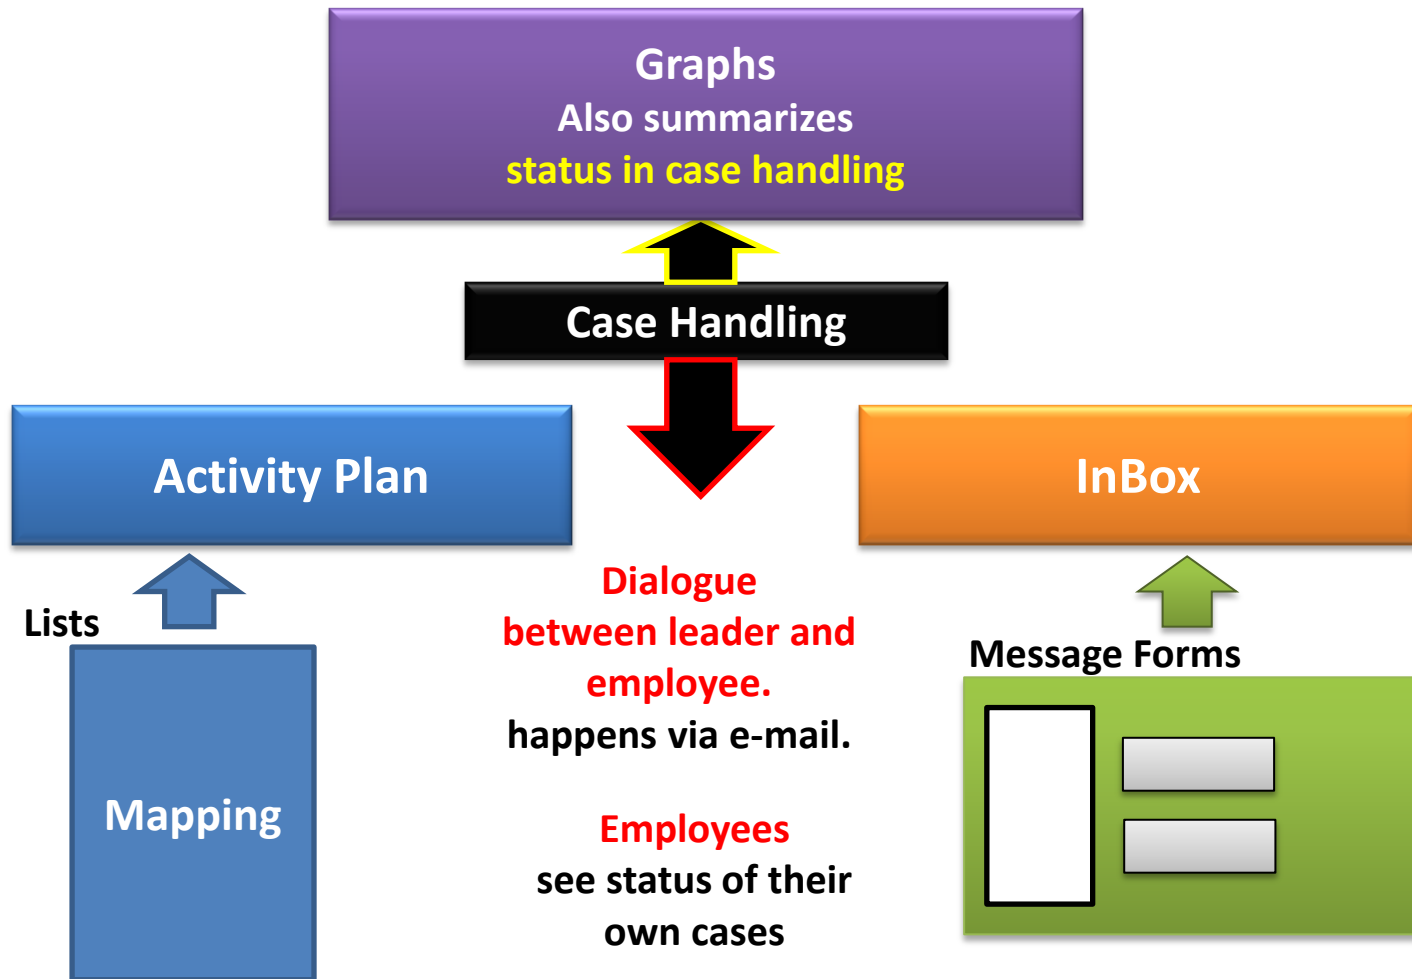

Number of Forms+ response categories are dependent on the organization

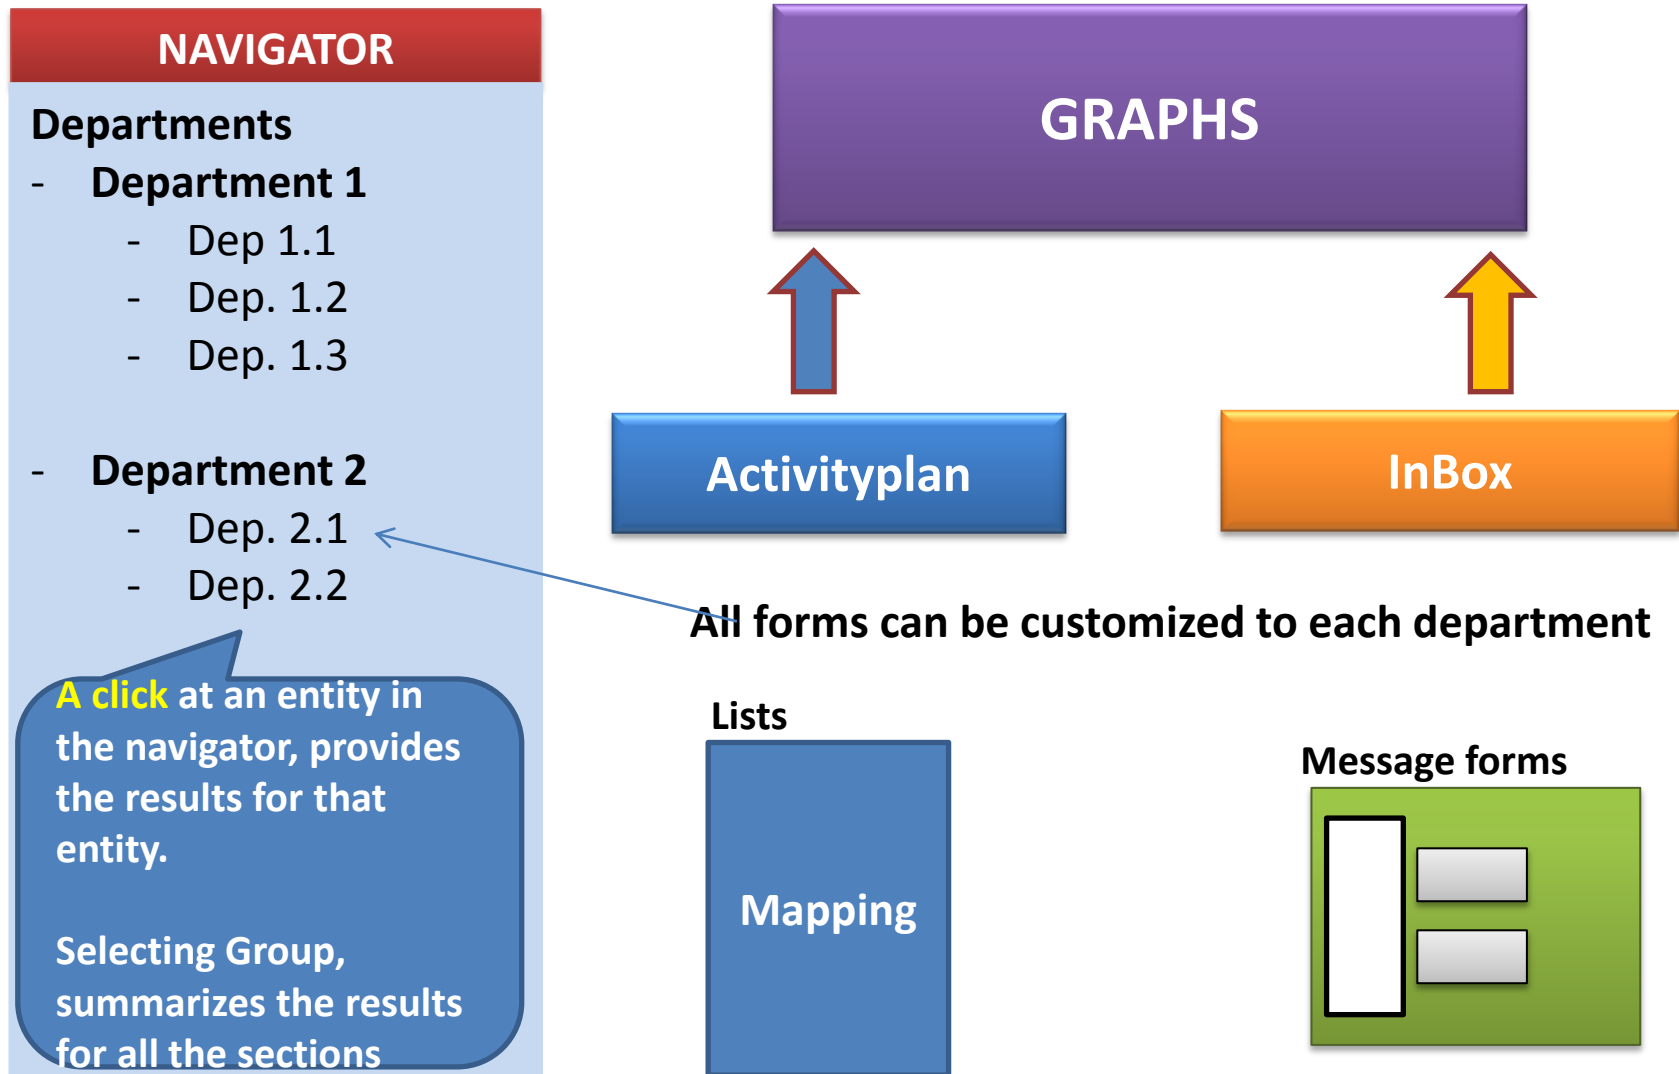

The leader decides the forms and the answer categories that result in graphs

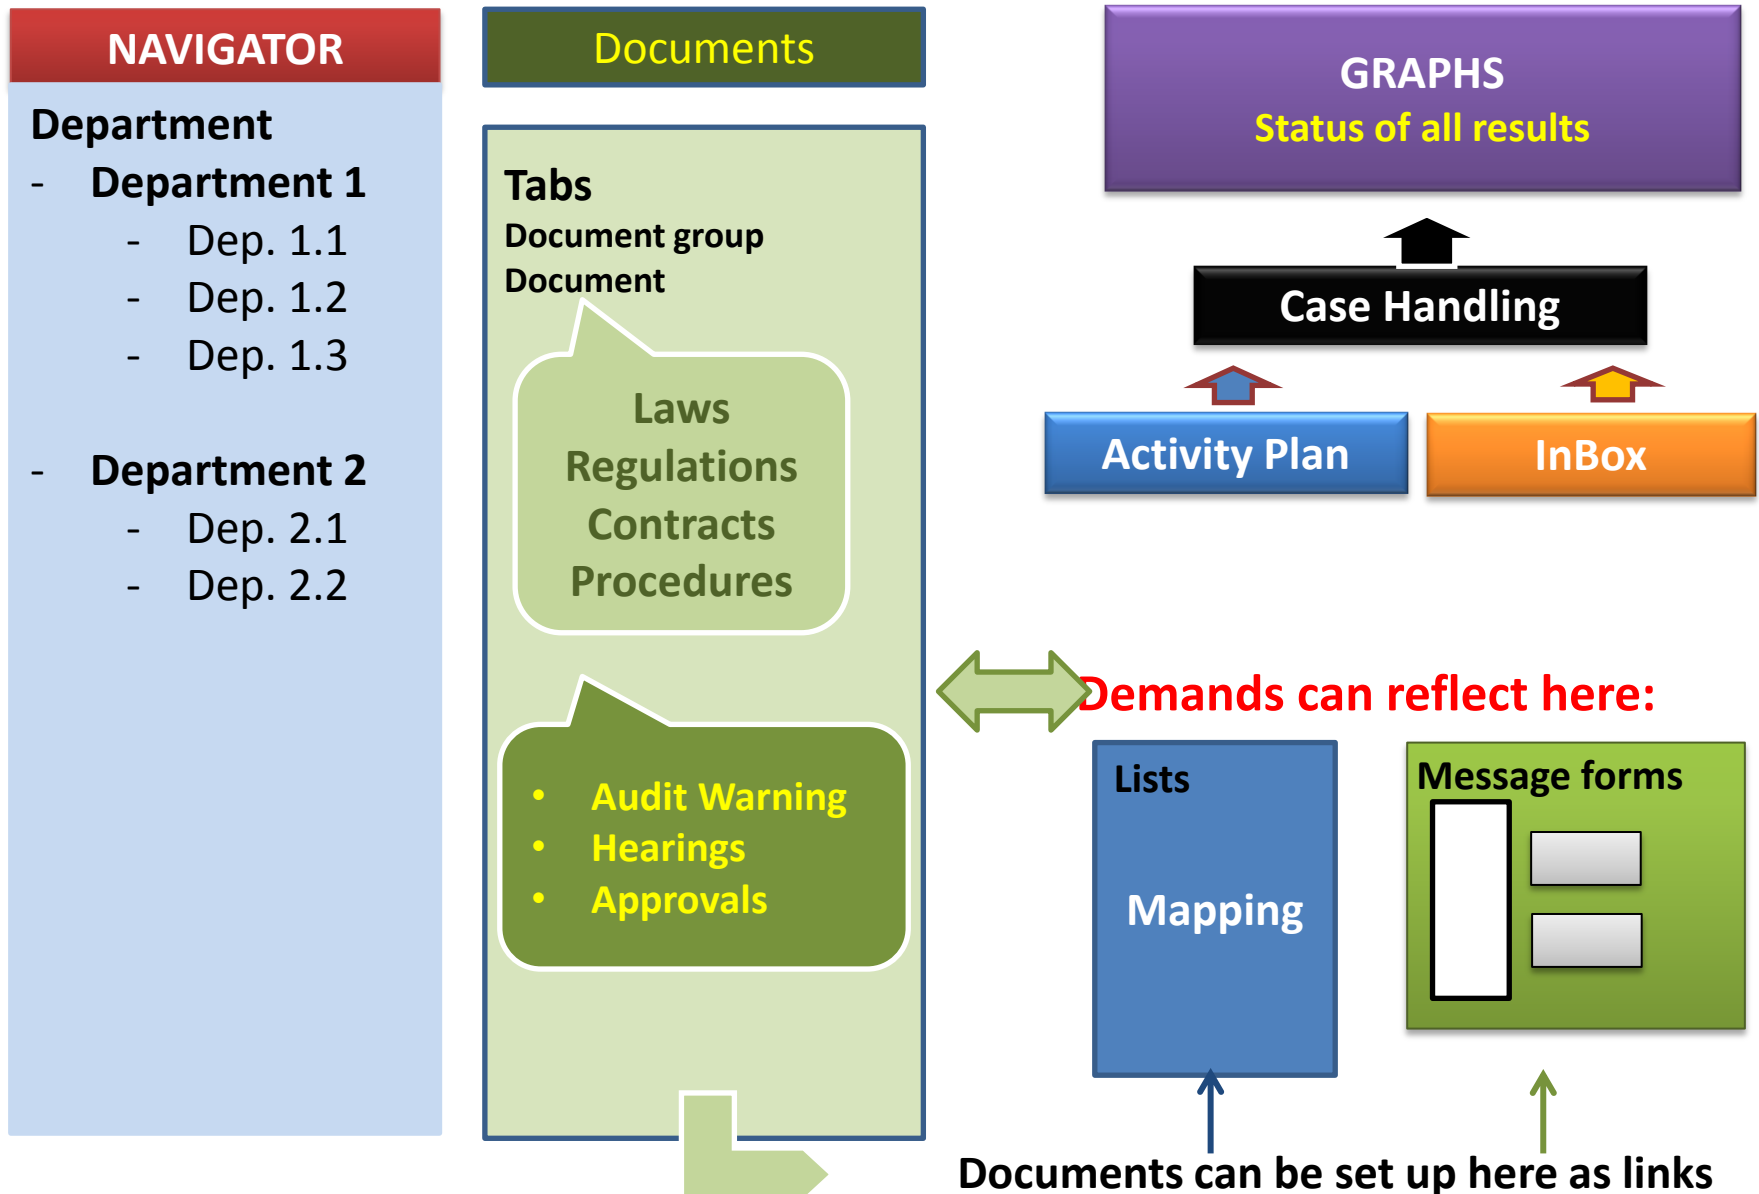

Qm⁺ *Dialogues happen seamlessly with e-mails*

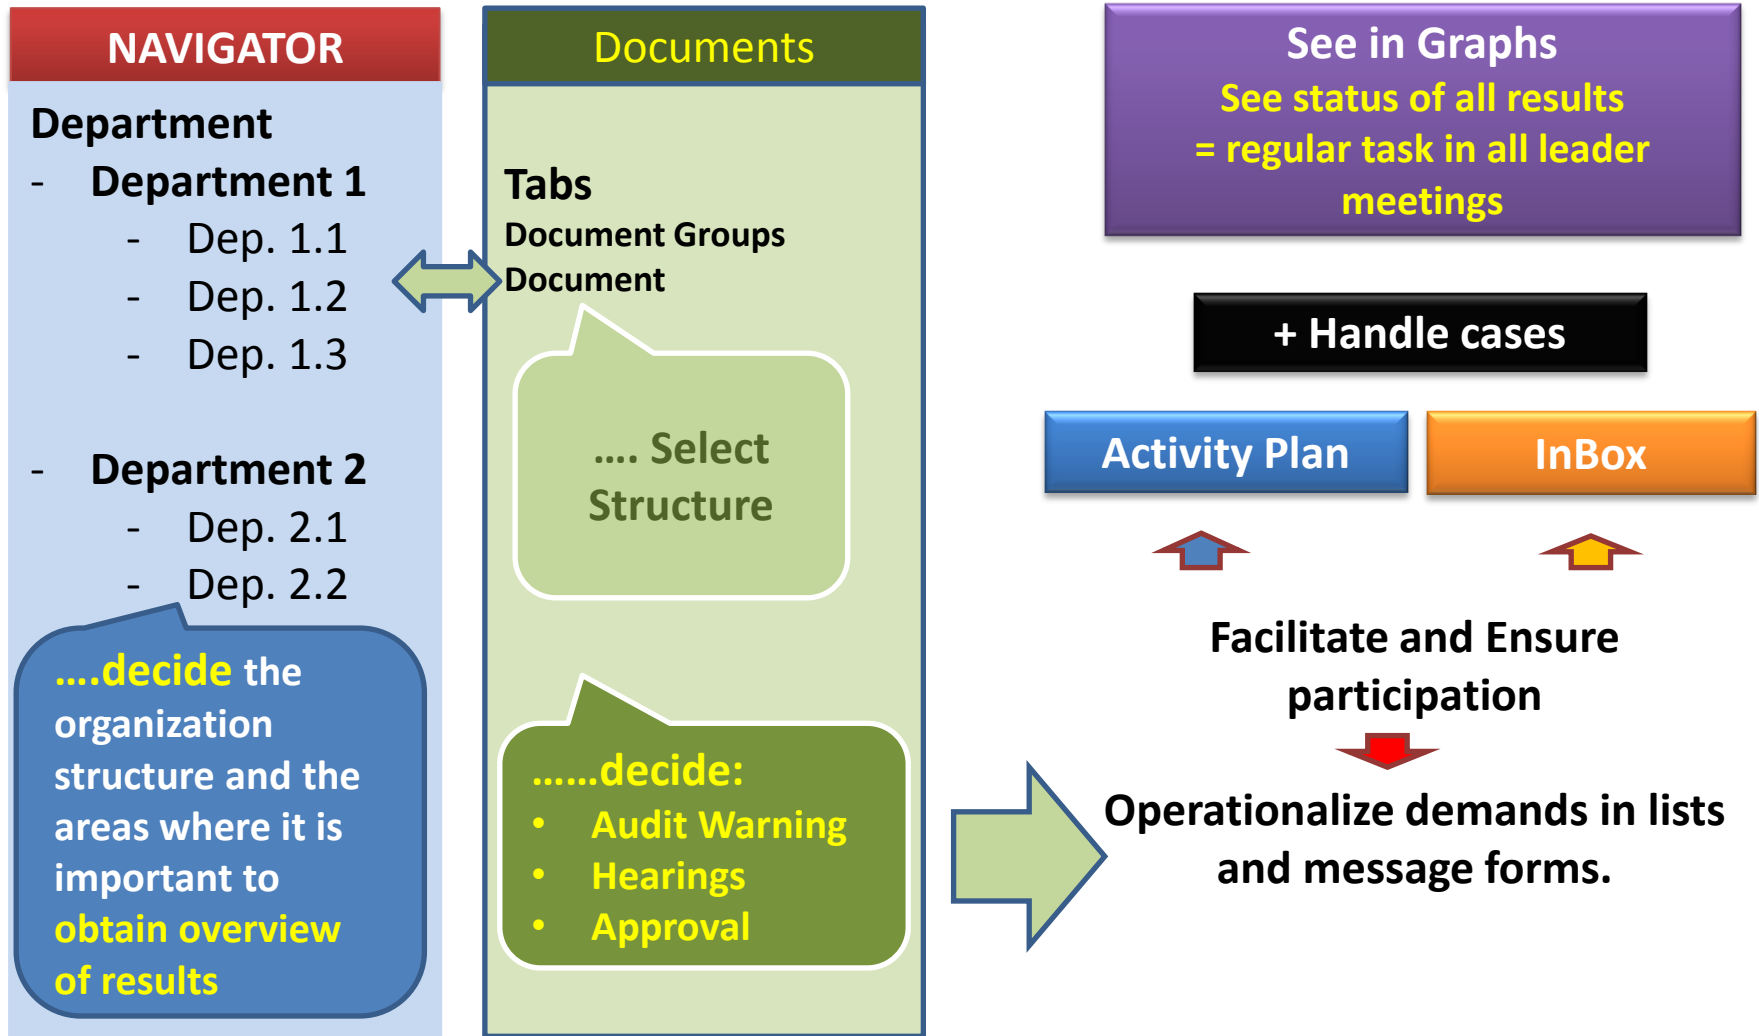

Trackable: E-mails are archived with the messages they are related to.

Qm⁺ *The navigator controls all the registrations and reports.*

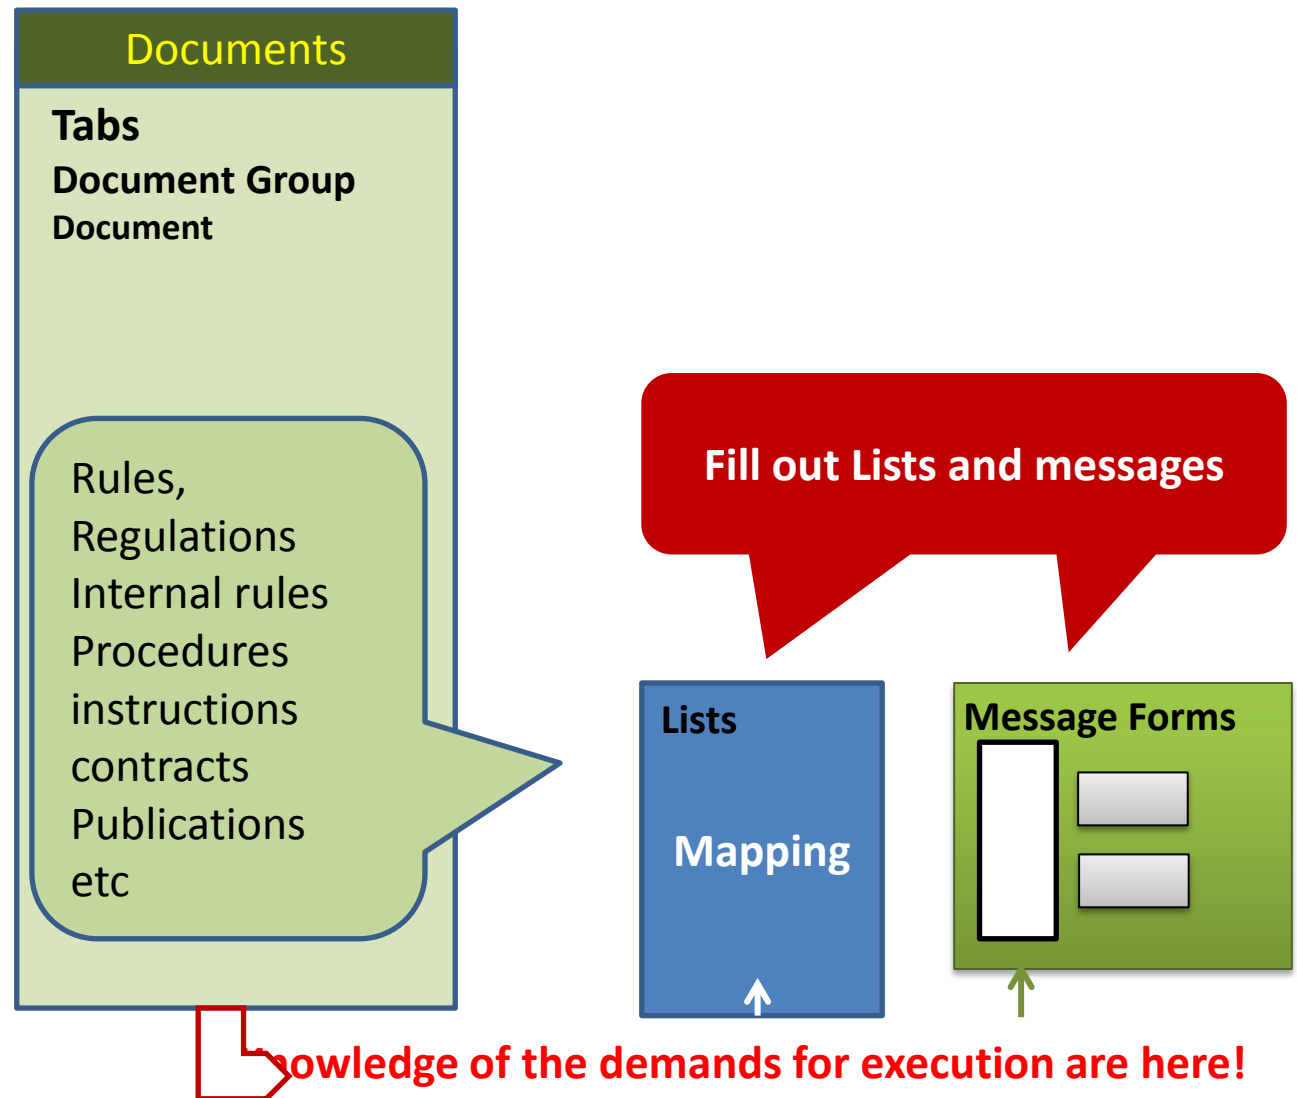

Leaders main role.....

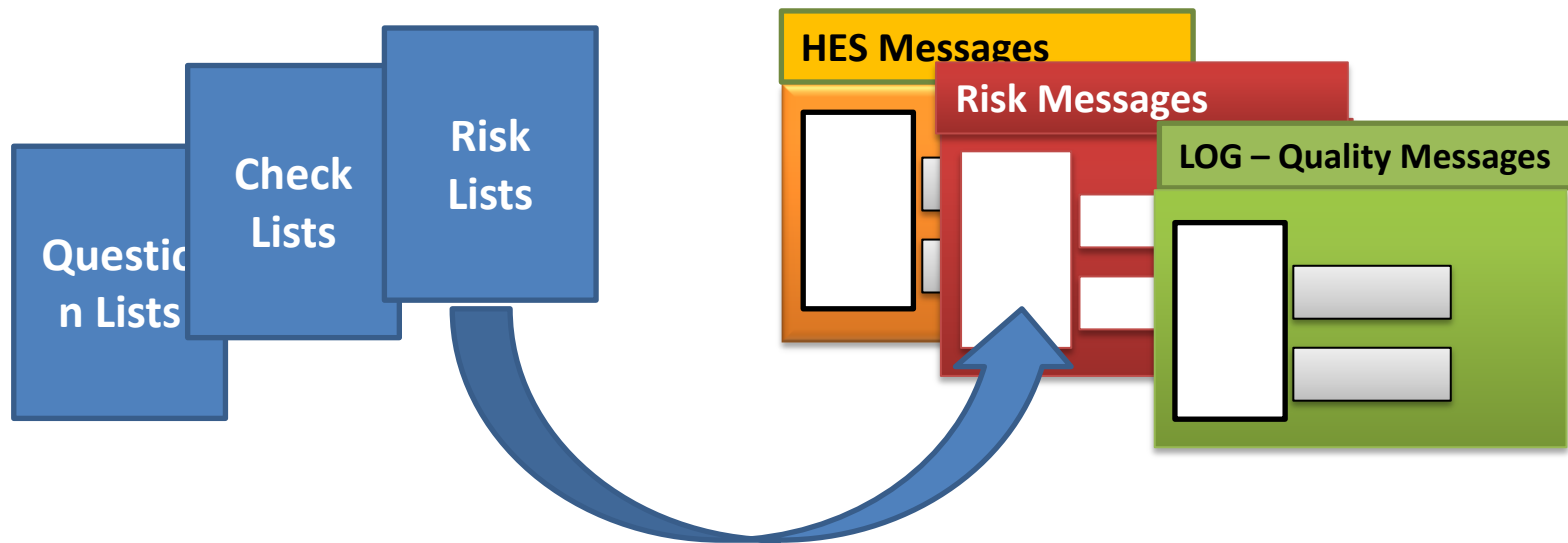

Employees main task...

Super Administrator's main task....

Managing and edit through **ADMIN**:

- Categories, Questions, Text boxes, Answer categories and
- link messageforms to relevant lists etc

Super Administrator **trains leaders** on possibilities

AMU and VO's main tasks:
